

# BALTIMORE?

## Are things still there when it's dark?

Which person first wrote a book? How long will the world last? How old is the sun? How did dinosaurs die? How was the universe created? Why are there volcanoes? How big is the sky? How do balls bounce? Do chimps eat flies? How are flies made? Why is there more than one planet? Is there a pot of gold at the end of the rainbow?

Why does the sky turn different colours? How do spiders build their webs? What is the moon made of? Which is the fastest ship? Why do frogs jump into water? How do spiders catch flies? How do you make a bed? How did God

make the world? Why are houses made of bricks? How do pedals make a bike move? Where do we get string from? How high is a wave when it hits the shore? Why do comets shoot through space at such tremendous speeds instead of just floating? How strong is gravity? How many ingredients does it take to make milk? If God made the world then who made God? How many days does it take to get to the moon? Is it shiny and sparkly inside? Where was I before I was born? Why can't houses be inside? Why do people sleep? Why do girls have long hair? Why does jelly

wobble? Why do octopuses have eight arms? Why do horses spook at bags and things? Who discovered hot and cold? Why do people come up with mythical creatures? Does a big tap fill the sea? Why do you call stones pebbles? Do worms go to heaven? What do ladybirds do? Are caterpillars too small to ride bikes? Why do apples have pips in? How do hot air balloons fly? What is a banana's second name? Does the sea fall down when it meets the sky? How are doors made? Who put ink into pens? Has anyone ever seen a real alien? Is the earth big?

## How far are the stars?

Why do we have pens? Why do we have night and day? What do spiders eat? Why does it rain? Why does sun shine? Why have we got heads? Who put the colours in the rainbow? Why do birds fly? What is the biggest shop in the world? Where is the jungle? Why have we got cars? How do trees grow? Why do snakes bite? Why do wolves have a bad nature even though one has never killed a human? Why does the sky stay up there? Who discovered the giraffe? Why are there motorbikes? Why have people got

hairs? Why do people snore? Are people really evolved from apes? Are bullies really scared? How many wives did King Henry the Eighth have? Can ladybirds do whatever they want? How do people live on air? How do you make life? How big is the sun? Why are adults bossy? Do people really learn to read and write? Why are the best reading books Treetops? How do helicopters, aeroplanes and clouds stay in the sky? What is the strongest glue? Why do tigers like water so much? Why are polar bears white?

### What are baths made for?

## Where does the snow go?

Why do birds fly? Why do elephants have long trunks? Why was fruit invented? What year was 782 years ago? Who invented God? Why do animals get ill? Why can electricity hurt you so badly? Why are there lots of stars? What did people

used to look like? When will there be another eclipse? Who invented cheese? Why does the earth move around? Why have we got clothes? Why don't animals don't eat the same food as us? Why are there computers? Why do horses

get in shows? Why are foals so little? Why do volcanoes erupt? How do snails smell? Why do horses bite? Why does alcohol get you drunk? Where do the famous people in the world live? Where do cats like to hide? Did doctors help people in

the old days? How small is the smallest butterfly? Which planet, the sun or the moon, is closest to the earth? Did Louis Braille really make Braille? Why do you have boyfriends? What did Victorians become after death? Are photos made of card or paper? Why do boys lark about so much? Why do people have

different colour skin? Which instrument is the hardest to play? Why do hyenas laugh? How do you make people? Why do rainbows never end? Who made manx cats have no tail? Why does the earth only have one moon? How can you hear the sea in shells? Why do radishes make my lips buzz?

### HOW DO YOU KNOW ANYTHING?

Are authors educated? Why is dinner made for us? Why do we go on holiday? Why do people have football? How are cats cute? Why is there war? What makes people sleep? Who lives on Mars? Why are animals made? Will the world ever end? Why are dwarfs small? Why is a limousine so big? What are clouds made of? Why do cows give milk? Is the earth flat? Where is your tibia? How do cows produce milk?

# No.15

# What colour is God?

Who invented numbers? Why was the sunset created? Why is the moon still up in the sky during the day? Why are others educated? Why do plants need water? Is the sea there because someone left the tap on? Do all cats have fur? Is the moon really made of cheese? Why do animals live in fields? Who first made allergy medicine? Do all books have spines? Where does the earth end? Why are trees so big? What is lava made of? Why was the

Titanic built? How do animals kiss each other? Were Adam and Eve the first people? When do you know if you've had a nightmare? How does a fish learn to swim? Why can't children tell parents off? Who made bad things and good things? Who made life in this world? Who made snowflakes? Who invented the pencil case? How do people grow so quick? How do people learn things? Is there anyone who is perfect? What is happening in Heaven? Why can't fish breathe out of water? Why can't houses fly? Why can't cars float? Why do horses stand up when they are sleeping? Is it true that moles are good lookers? Why do bats look so ugly? Why is it getting dark?

# What age can you start being an artist?

BALTIC is the major new international centre for contemporary art, opening 9 March 2002.

Art can be a way of provoking questions, encouraging us to consider our place in the world. BALTIC will often pose questions rather than providing answers. The questions collected here are the result of a project led by publisher in residence Alec Finlay that forms part of BALTIC's pre-opening programme, B4B.

BALTIC would like to thank everyone who sent us questions, including the many primary schools, nursery schools and child care providers in the Borough of Gateshead as well as parents and guardians.
